

Feds waste millions on **social security payments to the deceased**-Sac Bee

Above is one small example of the rampant wasteful spending approved by Congress every day. I will update you on new wasteful spending everyday at my website <http://www.CliffforCongress.com> to show my commitment to ending out of control spending in Washington.

**Taxes-** We are disproportionately taxed to fund waste in government. **California gets 80 cents back for every dollar** it spends in taxes while **other states** get over **\$2 back!**

We need **transparency in our monetary policy**. This is why one of my first actions in Congress will be to cosponsor HR 1207 which aims to audit the Federal Reserve and make government transparent with our tax dollars.
